Hi, my name is Ayanwumi Abdulroheem. I'm a front-end developer with over two years experience in frontend web development who is passionate about creating cool web apps and nice user-interfaces which gives users better experience. Open to internship and remote work opportunities and I'm always ready to learn and gain more experience from experts.

PROFESSIONAL EXPERIENCE

Frontend developer

Tickethub

March 2020 - Present

Worked as the lead frontend developer to design, install and configure internal applications and develop an event and ticket platform. I also developed a simple [chat application](#) , [home-rental-app](#) [github users repo](#) and a [fully functioning e-commerce web app](#)

Junior Frontend developer

Icify solutions limited

June 2019 - 2020

Help them build their website from scratch using HTML CSS and JavaScript and taught young developers coding. I also helped them optimize website performance.
